EXPERIENCE

Web Developer Intern | TopperWorld   Remote (June 2024)

- Developed a responsive landing page, a dynamic personal portfolio, and a functional e-commerce clone using HTML, CSS, JavaScript, React.js, and Node.js. Gained experience in front-end and back-end development, project management, and performance optimization.
- Implemented features such as user authentication and payment gateway integration. Enhanced cross-browser compatibility and SEO practices

PROJECT

E-Commerce   Link | GitHub

- Developed a feature-rich e-commerce application using **MERN** stack (MongoDB, Express, React, Node.js).
- The application includes functionalities such as order history tracking, user profile management, and an admin panel for managing products and orders.
- Implemented a responsive and intuitive user interface, ensuring a seamless shopping experience across devices. Utilized RESTful APIs for efficient data handling and state management within the application

Invoice Management App   Link | GitHub

- Designed and implemented an Invoice Management application using **React** and **Firebase**.
- The app features invoice generation, monthly report views, and real-time data synchronization.
- Developed a user-friendly interface to streamline invoice creation and management. Integrated authentication to ensure secure data handling.

SKILLS

Strongest Area: Data Structures, Algorithm

Programming Language: Java

Libraries/Frameworks: React.js, Express.js, Git, Node.js, HTML5, CSS3

Database: MongoDB, Firebase

Course Work: DBMS, Operating System, Networking, OOPs

EDUCATION

National Institute of Technology, Nagaland   2021-2025

B. Tech in Computer Science   CGPA:8.98

ACCOMPLISHMENT

DSA: Solved 400+ DSA problems on GeeksForGeeks. Link

Team Management: Organised multiple events in Techno-cultural Fest, handled over 30 team members
